

Backend

↳ Node (JS)

JavaScript

↳ Versatile & high level programming language that makes our website interactive.

Properties of JS

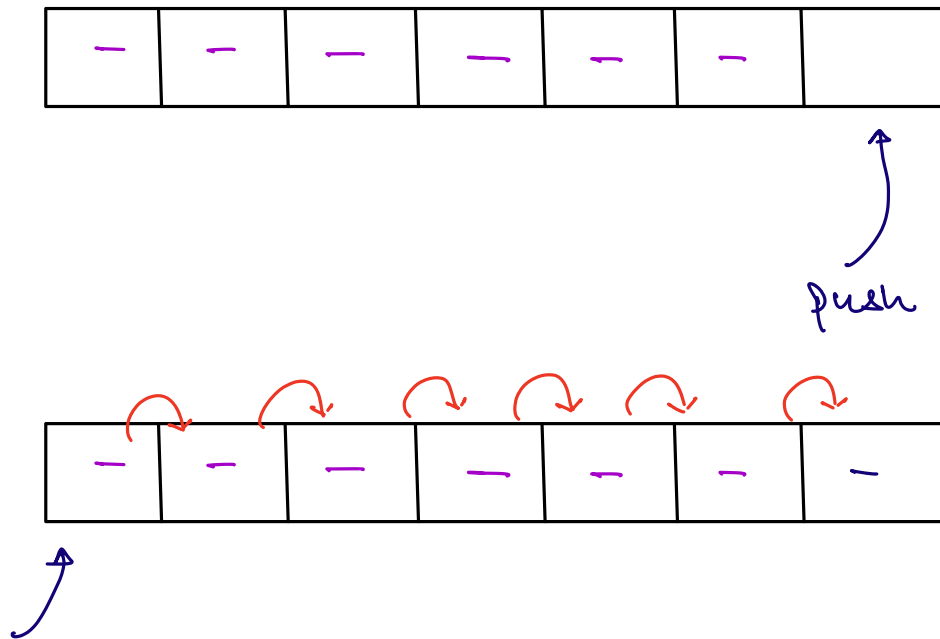

→ Interpreted: JS executes the code line-by-line.

→ Dynamically / Weak typed:

Data type {
int x = 10;
x = "Masai"
↓
Not allowed.
Java / C++ / --
→ Static / Strongly Typed language.

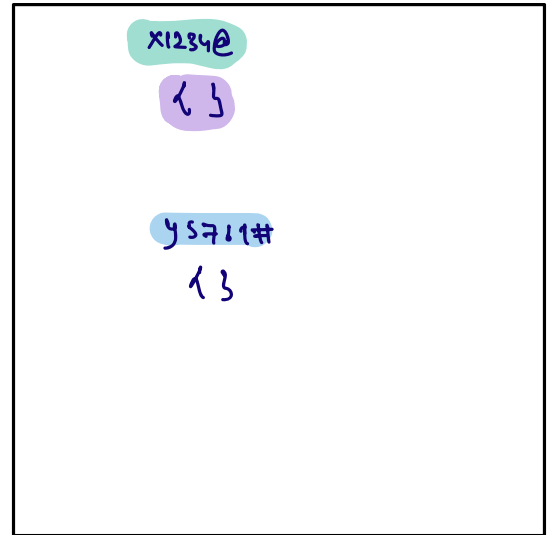

JS / Python ✓ {
a = 10
a = "masai"
a = 10.2
a = true
Dynamically Typed language.

	Redeclaration	Reassignment
var	✓	✓
let	✗	✓
const	✗	✗
